

PUBLIC LEDGER

FIFTH YEAR.

MAYSVILLE, KY., TUESDAY, SEPTEMBER 15, 1896.

ONE CENT.

BY THE GREAT HORNED SPOON!

Dear Mr. Bryan, Have You Heard the Voice of Maine?

WHERE'S E WALL TO M WATSON AT NOW?

Special Inducements on Tap at the Vice-Presidential Bargain Counter.

GEWHILLIKINS

Republican Plurality 50,000—Largest Ever Given!

AND NEXT DAY IT RAINED!

Welcome!

Thrice welcome!

Welcome to our distinguished visitor, the Hon. William Jennings Bryan, candidate for President of the United States, whose advent into Maysville this evening will mark an important era in the city's history:

Welcome to the thousands of strangers who will today for the first time set foot within our gates.

Thrice welcome the glorious news that is borne on the tidal wave that rolls down from Maine!

The Battle is on!

The Picket Firing began in Vermont. The enemy declared the issue doubtful. And indeed it was "doubtful" for several days whether the Republican majority would stop at 39,000 or whether it would be unanimous.

Then came the Skirmish in Arkansas, and the roosters crowded themselves hither over a "victory" that "broke all previous records"; but they're now discovered that their plurality in that Democratic stronghold is over 5,000 less than it was four years ago!

And yesterday the Artillery was swung into line and unlimbered in Maine—the shrill-voiced Parrots and the loud-mouthing Napoleons—and when the half of shrapnel and canister ceased at night, the hall was littered with the mangled remains of Bryan's misguided followers.

The Infantry is now moving forward, and when the general engagement takes place on the 2d of November Bryan will be annihilated.

The story of yesterday's Artillery Duel is told in the following special to THE LEDGER:

CINCINNATI, Sept. 15th, 1896. 8:39 a. m.

Latest from Maine indicates Republican plurality of FIFTY THOUSAND, which is TWELVE THOUSAND MORE THAN EVER BEFORE.

THE POPOCRATIC VICE-PRESIDENTIAL CANDIDATE E WALL'S OWN TOWN GAVE AN INCREASED REPUBLICAN VOTE OF NEARLY FOUR HUNDRED.

The Republicans have swept everything, except a few Representatives, by the biggest majorities ever known. A. N. K.

The name of Mr. T. F. Polit was omitted from the Committee of Reconstruction's apportionment of Miss Barkley, printed in Saturday's LEDGER, for the reason that Mr. Polit failed to attach his name to the resolutions.

Vinatigrette of the latest design and newest style,ings with bright silver mounted cases, Embroidered and Metal Scissors, handkerchief pockets-books and Card Cases, silver mounted Button Hooks and Files, and all the newest silver novelties.

Polly Yates, who is a 33 degree member of the Ancient and Honorable Order of Boozers, was yesterday fined \$25 and costs for prosecuting his profession. On his promise to leave the city and stay away a year the judgment was suspended.

Colonel R. H. Boas of Ashland, who represents the American Coal Company of New York City in Northeastern Kentucky, called the bluff of an Eastern free silverite who was offering to bet \$1,000 at even terms that the Democrats would win the New York election. When Colonel Boas dashed the money the Easterner took water and likewise the next train for Lexington.

Jennie Lewis, colored girl of the Sixth Ward, was yesterday "entertained" in the Paddlemaster General's Annex to the Police Court. An aunt of the girl wielded the paddle, and the resounding blows indicated that it was being put where it would do the most good. Jennie had been throwing rocks at other children.

A. B. Kohlass and Enos Brown have been appointed Extra Policemen for today in place of T. K. Proctor and J. W. Cunningham, who failed to report.

From all accounts Chamberlain's Cough Remedy is a Godsend to the afflicted. There is no advertisement about this; we feel just like saying it.—The Democrat, Carrollton, Ky. For sale by James Wood, Druggist.

Mollie Yates and Sallie Scott, the two colored women who had the scrap on Second Saturday night, in which Sallie was cut in the face, were before Judge Wadsworth yesterday charged with a breach of the peace. Each was fined \$5 and costs—\$5 apiece.

Calvin Lawrence, the festive Hobo who got up a racket by saying he had been "held up" and relieved of a lot of money and a free silver watch, was in the Police Court yesterday charged with drunkenness and disorderly conduct. The sum of \$10 was charged up to his account, which will be credited by breaking rock for the city.

PUBLIC SPEAKING.

APPOINTMENTS FOR REPUBLICAN MEETINGS.

THE LEDGER is permitted to print the following extract from a private letter written by a former Maysville man to his father in this city:

CHICAGO, September 12th, 1896.

* * * Bryan started out from Lincoln, Neb., last night for a speech-making tour through the South and East.

If he does not have any more genuine enthusiasm than he met with here on his last trip, I think he will be greatly disappointed.

Last Monday was Chicago's Annual Labor Day. About 50,000 laborers, men, women and children, Union men on their holiday. Mr. Bryan was invited to speak at Sharpshooter's Park. I had never seen him, and satuated also by a desire to see the great numbers of people who would rush hither to hear the "Boy Orator of the Plate." I went up there. He had been talking some ten minutes before I arrived. I immediately went around behind the building that he was speaking from, being a large stand with roof and three sides, a platform extending out from the front. I expected to see 50,000 yelling people; instead, when I got on the platform, within ten feet of him, I saw the exact size of the crowd, and I do not believe there were as many as 5,000 who were present, and about 20 per cent. of them were women. The rest were not all in sympathy with him, for after he was through I heard many expressions of men who were bitter in their denunciation of him for taking that opportunity, when he was a candidate, to make a speech. He certainly had far from a large demonstration.

The papers next day spoke of the "throngs" that heard him, when not one of the persons who wrote the headlines in the papers knew where Sharpshooter's Park was. They took it for granted a large crowd was there and wrote it up accordingly, but it was not true. The next day, Labor Day and the great advertisement he had for that opportunity, he did not speak, and a candidate for a speech, he certainly was sorely disappointed.

I am now convinced beyond doubt that with all his demagoguery and lying, seeking to divide the classes in this country by arraigning the rich against the poor, the laborer against the employer, that he will not get the vote of Illinois.

He certainly is the champion destroyer of public confidence. There is not a day that passes over my head that I do not hear lots of Democrats say that they will vote for McKinley. Down with Bryan.

When any part of the body is doing the work that it is not intended to do, it is the whole system out of tune—out of order.

Sickness in one part of the body is likely to run into all parts of the body. When children stand a row of bricks on end, they know the whole row must be upon one another. That is what is happening to the human body. The bowels fail to perform their proper function. Constipation makes trouble all along the line, puts the liver out of order, is bad for the kidneys and stomach, and causes all the body poisons to master, and because it cannot go any place else, it goes into the blood.

The blood carries it all over the system. That is why we have so many diseases. It is the foul matter in the mouth, the stomach, the intestines and the lungs, the heart and kidneys, that causes all the trouble.

WE'RE FOR AMERICA@AMERICANS!

"I believe that it is a good best bet to open up the West of the United States to the labor of Americans than to open up the Mists of the United States to the silver of the world."—WILLIAM MCKINLEY.

In 1892 we had the most prosperous times, the most general diffusion of prosperity, the most universal participation in prosperity, and the highest mark of prosperity we have ever attained as a Nation. Now, what has happened since? The Wilson Tariff Law.—BENJAMIN HARRISON.

The Popocatapet Headquarters are now in full blast at No. 13 West Second street. But haven't our friends made an emission in the sign upon the window? Why is it "BRYAN, SEWALL and THOMAS"? Where is Tom Watson at?

The Lowmoor Iron Company of Lowmoor, Va., has announced that no work will be done toward the erection of the coke ovens proposed at Covington, Va., until after the election, when, providing McKinley is elected, they will complete the ovens and put their now idle furnaces into blast.

COLONEL THOMAS J. YOUNG has been placed at the head of the Speakers' Bureau by the Republican Campaign Committee of Kentucky, and a better choice could not have been made. Owing to his new and onerous duties THE LEDGER readers will, during the campaign at least, be deprived of the pleasure afforded by his spicy letters to this paper; but it will be some compensation to know that he is still working for the success of McKinley, Sound Money, and Protection to American Labor.

The Treasury Department has made an exhibit of its records to prove that the Government has done all it could to force the silver coinage into circulation. The statement declares that the total standard silver dollars coined up to August 1st number 431,852,041. Of this number, 370,852,244 are lying idle in the vaults of the Treasury and 51,990,797 are in circulation, being less than one-seventh of the colage. The largest amount of these dollars ever in actual circulation was 67,547,023 in December, 1890. During the past ten years their circulation has varied between 60,000,000 and 50,000,000, and has never fallen below the latter figures. To maintain this circulation, the Government pays express charges of transportation on all the silver dollars it sends out. There is no other kind of money that is similarly shipped to individuals at the entire expense of the Government, with the insignificant exception of nickels and cents when forwarded direct from the Mint. The amount of silver dollars shipped each year varies from 25,000,000 to 30,000,000, as a cost to the Government of about \$50,000, a year.

At a political meeting at Martin, Lewis County, Saturday night there was a small riot. Thomas M. Irwin was struck on the back of the head and seriously cut. Marshal Vories was cut five times but is not dangerously hurt. Charles Miller, Oscar McCane and Barney Candy, three of the rioters, are in jail. The man who struck Irwin has escaped. Judge Phister of this city exhibited phenomenal coolness by speaking for more than an hour in the face of the mob.

DEMOCRATIC DOCTRINE.

Andrew Jackson on the Importance to Labor of a Stable Currency.

Andrew Jackson's Eighth Annual Message.

"A depreciation of the currency is always attended by a loss to the laboring classes. This portion of the community have neither time nor opportunity to watch the ebbs and flows of the money market. Engaged from day to day in their useful toils, they do not perceive that, although their wages are nominally the same, or even somewhat higher, they are greatly reduced, in fact, by the rapid increase of currency, which, as it appears to make money abound, they are at first inclined to consider a blessing."

Tom Watson is tired of being trifled with and now proposes to see Mr. Bryan personally and give him choice between dropping Sewall or having a middle-of-the-road Populist nominated for President.

DEPARTMENT circles are disturbed by a rumor that Bryan will make an attack on Civil Service reform on the occasion of his coming visit to Washington. Well, it wouldn't be his way if he didn't. He's attacking about everything in sight, whether he knows anything about it or not.

This evening Maysville will have within her gates the Hon. WILLIAM JENNINGS BRYAN, Democratic Candidate for President of the United States.

Mindful of the honorable station to which he aspires, our citizens, irrespective of party, will give him a hearty reception.

But remembering the damnable heresy of which he is the representative, they will in November welcome him with hospitable hands to a secluded political grave!

A special from Lincoln, Neb., to the Philadelphia Press says Major McKinley will carry Candidate Bryan's own precinct by three votes to one for his opponent, and by a plurality larger than that obtained by HARRISON four years ago over the combined Populist-Democratic vote for President.

This result, which seems doubly remarkable in view of the Democratic candidate's popularity at home, has been established by a careful house-to-house poll of the Precinct, which is A in the Fifth Ward.

All the citizens answered courteously, and it is believed that the poll is accurate. The final figures were: McKinley, 210; Bryan, 71; Bentley, 1; doubtful Republicans, 9; doubtful Democrats, 9; undecided, 11.

MORTGAGE OWNERS.

SOME FACTS THAT ARE WORTH STUDYING OVER.

Philadelphia Press.

When Mr. Bryan charged "those who hold fixed investments" as "the only potent force" in favor of the existing gold standard he probably had a vague idea in his ill formed mind that they were few in number.

Take real estate mortgages. The mortgage is the symbol in the minds of many for the grasping creditor. In 1890 there were \$6,300,000,000 of such mortgages. Who owned them? The savings banks held of these mortgages \$657,588,977 in trust for 4,538,217 depositors. The building associations held \$450,000,000 in trust for 1,800,000 shareholders. The life insurance companies doing business in New York state held (Dec. 31, 1890) \$272,828,457 for 4,582,381 policy holders. Adding other states, in 1890 about \$600,000,000.

In these three items in 1890 there were 12,100,000 persons holding \$1,437,000,000 of mortgages. This number of persons is nearly twice as numerous as the votes which will be cast for Bryan. One fourth of the real estate mortgages in the country were owned in 1890 by this thrifty, industrious, saving mass of people, who are "those who hold fixed investments" of whom Mr. Bryan spoke and who are turning this over just now pretty carefully in their minds, and making them up that, as they paid in a gold dollar, they do not propose to get a silver one, worth half as much, paid in ten years.

This dispenses one-fourth of this mortgage debt. It is owned literally by the million for the million. The banks hold little or nothing of this mortgage debt. The National Banks are prohibited from holding any. All the other banks, state banks, trust companies and private banks, in 1890 held less than \$60,000,000 of these loans. Railroads do not own them. They have their own mortgage bonded debt of some \$5,000,000,000, which is owned, 10 per cent, of it, by insurance companies and savings banks, and the rest scattered among 500,000 people. The big corporations do not own real estate mortgages.

As we have shown, a quarter of these mortgages in 1890, about \$1,500,000,000, were held by 18,100,000. The other \$4,700,000,000 were in the hands of small owners. Look over any county clerk's book of real estate liens. Consult your acquaintance. The great mass of mortgages are held locally in small sums and amounts by saving and thrifty people.

If you want the most concise arguments against the Free Silver heresy subscribe to THE LEDGER.

The example of Ohio in passing a law against high hats in theaters has been followed by the state of Louisiana and the law is now being rigidly enforced in New Orleans. No woman wearing high headdresses is permitted to keep it on during theatrical performances.

An aunt of mine, who resides at Dexter, Iowa, was about to visit me a few years since, and before leaving home wrote me asking if they were sold here, stating if they were not she would bring a quantity with her, as she did not like to be without them." The medicines referred to are Chamberlain's Cough Remedy, famous for its cures of colds and croup; Chamberlain's Pain Balsam; for rheumatism; Chamberlain's Cold, Cholera, and Diarrhoea Remedy for bowel complaints. These medicines have been in constant use in Iowa for almost a quarter of a century. The people have learned that they are articles of great worth and merit, and are unequalled by any other. They are for sale here by J. James Wood, Druggist.

This dispenses one-fourth of this mortgage debt. It is owned literally by the million for the million. The banks hold little or nothing of this mortgage debt. The National Banks are prohibited from holding any. All the other banks, state banks, trust companies and private banks, in 1890 held less than \$60,000,000 of these loans. Railroads do not own them. They have their own mortgage bonded debt of some \$5,000,000,000, which is owned, 10 per cent, of it, by insurance companies and savings banks, and the rest scattered among 500,000 people. The big corporations do not own real estate mortgages.

As we have shown, a quarter of these mortgages in 1890, about \$1,500,000,000, were held by 18,100,000. The other \$4,700,000,000 were in the hands of small owners. Look over any county clerk's book of real estate liens. Consult your acquaintance. The great mass of mortgages are held locally in small sums and amounts by saving and thrifty people.

MAINE ELECTION

Five Candidates in the Field for the Office of Governor,

Who is the Only State Officer Chosen by the People.

The Majority of Powers, the Republican Candidate, Larger than the Most Energetic Republican Anticipated—Four Congressmen Re-elected.

PORTLAND, Me., Sept. 15.—The campaign which culminated to-day in a Republican victory was a long and tiresome one, for years upon both sides. It has been a scattering campaign almost entirely, and the entire state has been covered. There were five candidates for the office of governor, who is the only state officer chosen by the people, and those chosen were by the legislature. The name of one of these, William Henry Clifford, of Portland, the nominee of the sound money democrats, was not upon the official ballot and those voting for him were obliged to write his name upon their ballots. The other candidates were Hon. Llewellyn Powers, of Houlton, republican; Hon. Melvin P. Frank, of Portland, democrat; Ammi S. Ladd, of Calais, proletarian; and Hon. George Brinson, of Auburn, populist. Congressmen, county officers, state senators and representatives to the legislature were also elected. The average estimate of the republican plurality for governor was 20,000 to 30,000, and it is believed with about 39,000 in 1894 and 13,500 in 1892, but the vote Monday throughout the state was larger than anticipated, and the majority of Powers, the republican, is larger than the most enthusiastic republican predicted, the latest return indicating that it will reach nearly 50,000. In nearly every county the members are republicans by much larger pluralities than ever before, and, in some cases, no candidates were put in the field by the democrats.

In all four of the congressional districts the present incumbents were re-elected, with increased pluralities. In the First, the republican plurality was something over 10,000 as against 8,150 two years ago, while congressmen Dingley, Milliken and Bostelle go back to the next congress with a much larger vote than two years ago. The situation will continue to favor republicans.

Two hundred and seventy-five towns give Powers, 63,661; Frank, 53,841; Clifford, 541; scattering, 3,327. Powers' plurality, 38,320.

State senator, Hon. John Cleaves, 33; Rep. John C. Brown, 27,704; scattering, 6,670. Cleaves' plurality, 30,931. Republican gain in plurality, 7,309.

PORTLAND, Me., Sept. 15.—The result for congressmen in the First district with two others was held in New York city, Price being 16,589; Reed's plurality will be 16,589. Two years ago Reed's plurality was 5,185.

THE CAUSE
Or a Dad That May Beast in Another
Institute Meeting.

SWAINSBORO, Ga., Sept. 15.—Judge H. D. Twiggs, the most prominent criminal lawyer in Georgia, has given to the press a statement concerning the trial in which he was engaged in fighting, and the statement is of itself highly sensational. The story referred to was that Col. George Brinson, democrat nominee for senator from this district, had dropped from his pocket a letter of Mrs. Twiggs; that the note was sent Judge Twiggs, and a challenge to mortal combat followed.

Judge Twiggs denies the story. He tells another, however, that has caused him to drop from his pocket a letter. He says that during the illness of Mrs. Twiggs she was nursed by a lady, an intimate friend, Col. Brinson, he says, did get a letter, but it was from this lady, not from Mrs. Twiggs. Twiggs placed the greatest confidence in this letter referred to past meetings of a compromising character, asked for money and referred to meetings in the future. Judge Twiggs declined to give the lady a name, but says he cannot refrain making this publication in justice to his innocent wife.

The story of Judge Twigg's marriage is recent. He was the regular guest at the annual dinner of the Georgia Bar Association, held in Atlanta, Ga., on Sept. 12. His wife, Mrs. Twiggs, was a widow, for whom he got a divorce. He went west, was divorced from his wife, and, marrying the once Mrs. Harrison, returned to Georgia. It is believed that this last move will bring him more trouble, as Col. Brinson is expected to resent his reference to his affairs.

H. Reed reached Lowell at 7:30 o'clock Monday night. The day had been extremely hot and the wear and tear on the democratic candidate's system began to show shortly after he crossed the mountains. He had been obliged to stop to make many speeches but the enthusiasm of the crowds, at every station where a stop was made, carried him away and his resolution went for naught. As a consequence he had to give up his strength enough to get on reaching Lowell to comply with the requirements of his programme for the evening.
